5 Liter Hopper Kit 243496

NOTE: See setup on the next page.

Ref. No.	Part No.	Description	Qty.
1	188787	HOPPER	1
2	112133	SCREEN	1
3	243495	TUBE	1
4	104938	O-RING	1
5	193237	EXTRUSION, foot	1

Fig. 1

⚠ WARNING

The system remains pressurized until pressure is manually relieved. To reduce the risk of serious injury from pressurized fluid, accidental spray from the gun or splashing of any fluid, follow this procedure whenever you:

- are instructed to relieve pressure
- stop spraying
- check or service any system equipment

Pressure Relief Procedure

1. Lock the gun trigger safety.
2. Turn the ON/OFF switch to OFF.
3. Unplug the power supply cord.
4. Unlock the gun trigger safety. Hold a metal part of the gun firmly to the side of a grounded metal pail, and trigger the gun to relieve pressure.
5. Lock the gun trigger safety.
6. Open the pressure drain valve, having a container ready to catch the drainage.

If you suspect that the spray tip or hose is completely clogged, or that pressure has not been fully relieved after following the steps above, **VERY SLOWLY** loosen the tip guard retaining nut or hose end coupling to relieve pressure gradually, then loosen completely. Now clear the tip or hose.

Setup

1. Relieve pressure.

 Not visible

NOTE: Refer to Fig. 2 except where noted.

2. Rinse and dry the inside of the hopper (1).
3. Remove the original suction hose. Unscrew the suction hose tube from the pump intake valve.
4. Screw the new tube (3) into the pump so it faces straight forward.
5. Be sure the o-ring (4, Fig. 1) is in place and then screw the hopper (1) securely onto the tube.
6. Be sure the screen (2, Fig. 1) is in place at the inside bottom of the hopper. Refer to the parts drawing on the front of this manual.
7. Fill the hopper. Place the lid on the hopper. Put the suction tube into the hole in the lid of the hopper.
