

FUSION™

310649 Rev.A

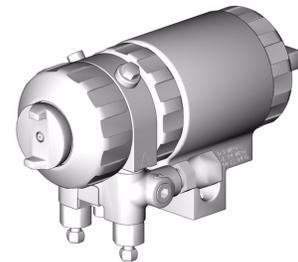

Automatic Plural Component, Impingement Mix Spray Gun

For use with non-flammable foam and polyurea.
Not for use in explosive atmospheres.

*3500 psi (24.2 MPa, 242 bar) Maximum Fluid Working Pressure
80-130 psi (0.55-0.9 MPa, 5.5-9.1 bar) Air Inlet Pressure Range
200° F (94° C) Maximum Fluid Temperature*

Air Purge Gun

Warning

WARNING

A warning alerts you to possible serious injury or death if you do not follow instructions.

Symbols, such as fluid injection (shown), alert you to a specific hazard and direct you to read the indicated hazard warnings on pages 5-6.

Caution

CAUTION

A caution alerts you to possible equipment damage or destruction if you do not follow instructions.

Note

A note indicates additional helpful information.

 WARNING	
	<p>PERSONAL PROTECTIVE EQUIPMENT</p> <p>You must wear proper protective equipment when operating, servicing, or when in the operating area of the equipment to help protect you from serious injury, including eye injury, inhalation of toxic fumes, burns, and hearing loss. This equipment includes but is not limited to:</p> <ul style="list-style-type: none"> • Protective eyewear • Clothing and respirator as recommended by the fluid and solvent manufacturer • Gloves • Hearing protection.
	<p>TOXIC FLUID OR FUMES HAZARD</p> <p>Toxic fluids or fumes can cause serious injury or death if splashed in the eyes or on skin, inhaled, or swallowed.</p> <ul style="list-style-type: none"> • Read Material Safety Data Sheet (MSDS) to know the specific hazards of the fluids you are using. • Store hazardous fluid in approved containers, and dispose of it according to applicable guidelines.
	<p>INJECTION HAZARD</p> <p>High-pressure fluid from gun, hose leaks, or ruptured components will pierce skin. This may look like just a cut, but it is a serious injury that can result in amputation. Get immediate medical attention.</p> <ul style="list-style-type: none"> • Do not point the gun at anyone or at any part of the body. • Do not put your hand or fingers over the gun fluid nozzle. • Do not stop or deflect leaks with your hand, body, glove, or rag. • Do not “blow back” fluid; this is not an air spray system. • Follow Pressure Relief Procedure, page 13, when you stop spraying and before cleaning, checking, or servicing equipment. • Use lowest possible pressure when flushing, priming, or troubleshooting. • Engage piston safety lock when not spraying. • Tighten all fluid connections before operating the equipment. • Check hoses, tubes, and couplings daily. Replace worn or damaged parts immediately. High pressure hose cannot be recoupled; replace the entire hose.
	<p>BURN HAZARD</p> <p>Equipment surfaces and fluid that’s heated can become very hot during operation. To avoid severe burns, do not touch hot fluid or equipment. Wait until equipment/fluid has cooled completely.</p>

WARNING
**FIRE AND EXPLOSION HAZARD**

Flammable fumes, such as solvent and paint fumes, in work area can ignite or explode. To help prevent fire and explosion:

- Use equipment only in well ventilated area.
- Eliminate all ignition sources, such as pilot lights, cigarettes, portable electric lamps, and plastic drop cloths (potential static arc).
- Do not plug or unplug power cords or turn lights on or off when flammable fumes are present.
- Keep the work area free of debris, including solvent, rags, and gasoline.
- Ground equipment and conductive objects. See **Grounding** in Fusion Gun manual 309550 or 309856.
- Hold gun firmly to side of grounded pail when actuating into pail.
- Use only grounded hoses.
- If there is static sparking or you feel a shock, **stop operation immediately**. Do not use equipment until you identify and correct the problem.

**EQUIPMENT MISUSE HAZARD**

Misuse can cause serious injury or death.

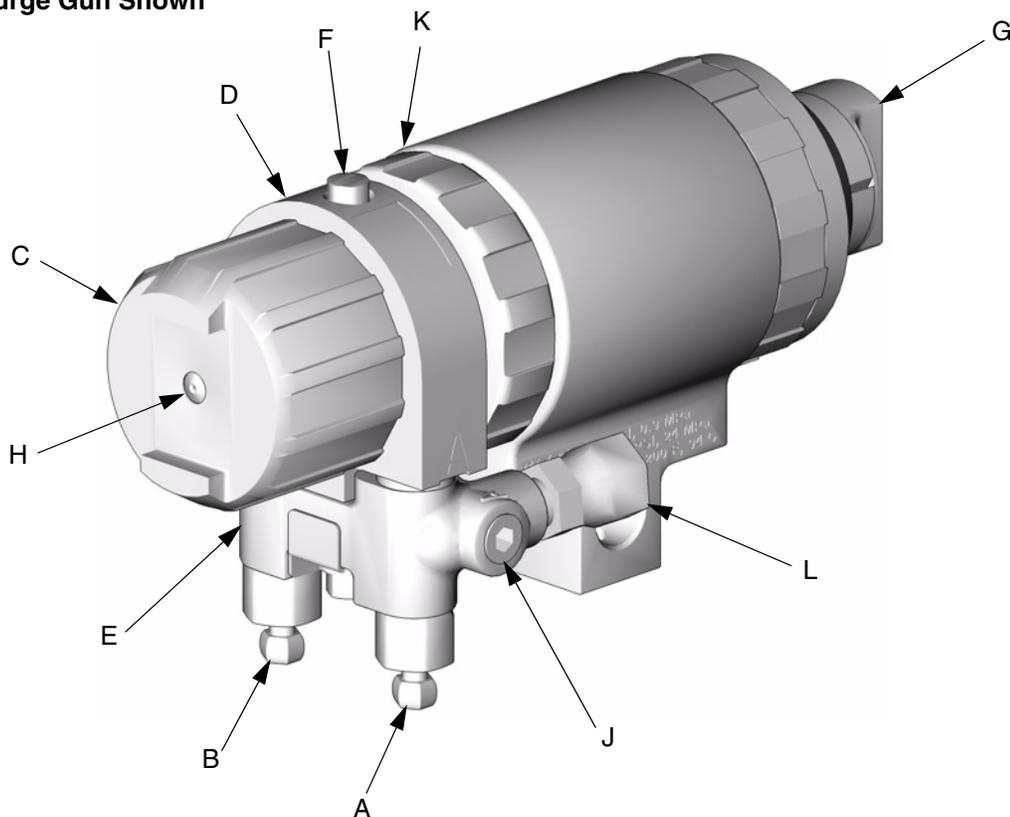

- For professional use only.
- Use equipment only for its intended purpose. Call your Graco distributor for information.
- Read manuals, warnings, tags, and labels before operating equipment. Follow instructions.
- Check equipment daily. Repair or replace worn or damaged parts immediately.
- Do not alter or modify equipment. Use only Graco parts and accessories.
- Do not exceed the maximum working pressure or temperature rating of the lowest rated system component. See **Technical Data** in all equipment manuals.
- Use fluids and solvents that are compatible with equipment wetted parts. See **Technical Data** in all equipment manuals. Read fluid and solvent manufacturer's warnings.
- Route hoses and cables away from traffic areas, sharp edges, moving parts, and hot surfaces.
- Do not use hoses to pull equipment.
- Comply with all applicable safety regulations.

**PRESSURIZED ALUMINUM PARTS HAZARD**

Do not use 1,1,1-trichloroethane, methylene chloride, other halogenated hydrocarbon solvents or fluids containing such solvents in pressurized aluminum equipment. Such use can cause serious chemical reaction and equipment rupture, and result in death, serious injury, and property damage.

Installation

Mounting gun to rod

1. To mount the gun on a 1/2 in. diameter rod, insert the bar (A) through the hole in the gun body as shown.

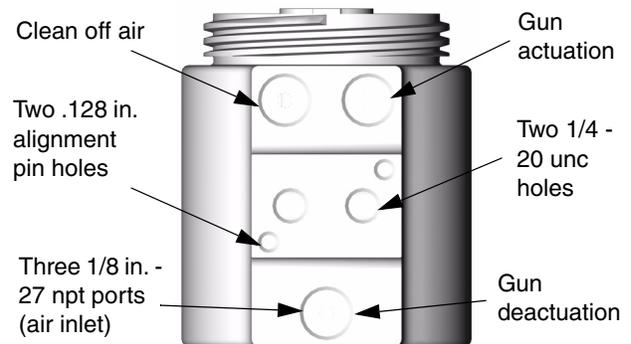

ti4750a

2. Secure the gun to the bar by tightening 1/4 in. - 20 mounting screws.

Mounting gun to stationary support or robot arm

To mount gun to stationary support or robot arm, see mounting hole dimensions page 20.

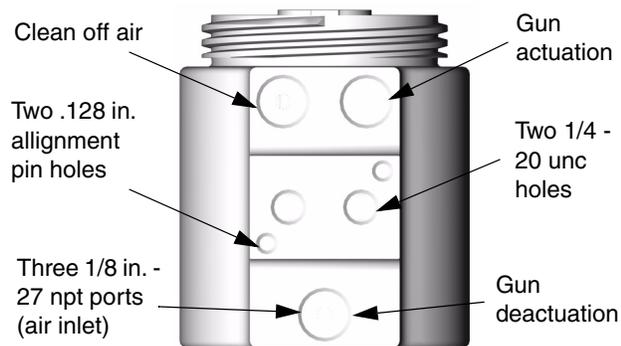

Mounting Information

ti4751a

Connecting airline and accessories

- 1.** On each gun air supply line, install an air pressure regulator.
 - It is recommended that the tip clean off air, gun actuation, and gun deactuation air be supplied and regulated separately.
 - A minimum of 80 psi (.55 mpa, 5.5 bar) air pressure must be supplied to the gun for proper operation.
 - A three-way air valve, which exhausts cylinder air, is required.
- 2.** On each gun air supply line, install a bleed-type air shut off valve down stream of the gun air regulator.
- 3.** On the main air line, install a bleed-type air shut off valve.

ti4751a

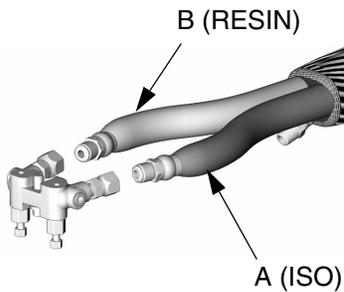

Setup

- 1.** Close fluid valves A and B.

TI2411A

- 2.** Connect A (ISO) and B (RESIN) fluid hoses to fluid manifold.

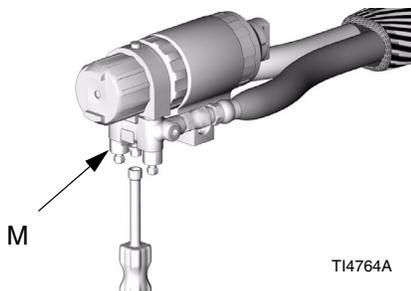

TI2417A

- 3.** Engage piston safety lock.

TI3850a

- 4.** Connect the airlines, see **Installation** page 8. Attach fluid manifold (D) to gun.

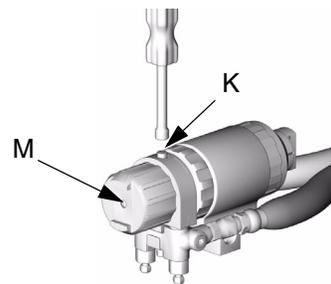

TI4764A

 To change position of fluid manifold or use optional fluid inlets, see Fusion Gun manual 309856 or 309550.

- 5.** For Mechanical Purge Guns Only:

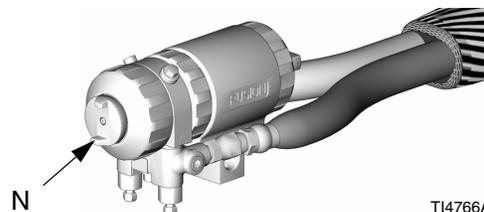

- a.** Open clean off air line valve. Air should flow from air cap around Ceram Tip (M).
- b.** Open clean off air valve (K) about 1/4 to 1/2 turn, then adjust air flow as required.
- c.** Adjust purge rod, see manual 309856.
- d.** Go to step 10.

TI4765A

For Air Purge Guns Only:

- a.** Open clean off air line valve. Air should flow from nozzle (N). Continue through steps below.

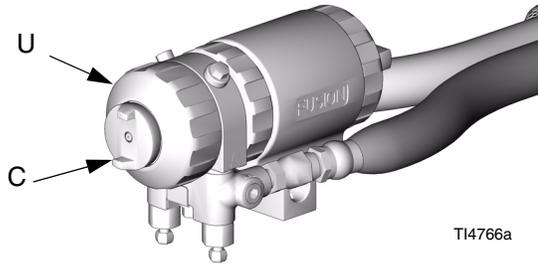

TI4766A

- 6.** Disengage piston safety lock.

- 7.** Actuate gun to check for full mix chamber travel. Front of air cap (C) should be approximately flush with front retaining ring (U).

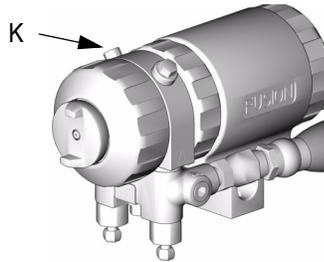

- 9.** Engage piston safety lock.

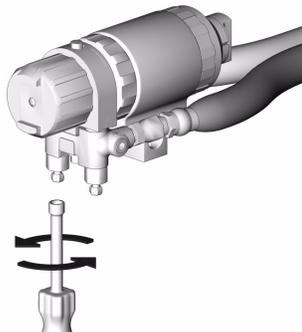

TI2409A

- 8.** Open cleanoff air valve (K) 1/4-1/2 turn and actuate air line to check that cleanoff air is flowing. Adjust as desired.

10. Turn on proportioner.

11. Open B (RESIN) fluid valve (about three half turns). Then open A (ISO) fluid valve.

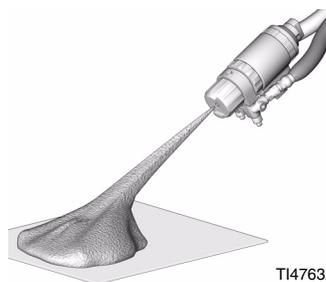

TI4752A

12. Disengage piston safety lock.

TI3849

13. Test spray onto card board. Adjust pressure and temperature to get desired results.

TI4763A

14. Apply layer of lubricant over front of gun and lock ring, or use gun cover to prevent overspray buildup and ease disassembly. See Fusion Gun Manual 309856 or 309550 to order lubricant and gun cover

15. Gun is ready to spray.

CAUTION

Air supply is required for gun actuation. Do not disconnect gun air supply until fluid pressure is relieved, see page 13.

Pressure Relief Procedure

⚠ WARNING

Read warnings, page 5. Relieve pressure before cleaning or repairing gun.

1. Engage piston safety lock.

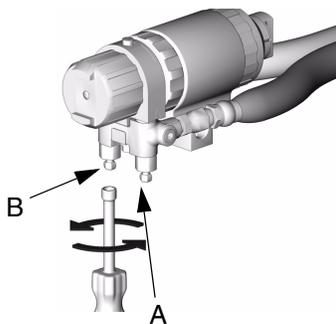

TI3850A

CAUTION

Air supply is required for gun actuation. Do not disconnect gun air supply until fluid pressure is relieved.

2. Close fluid valves A and B. Leave air inlet open.

TI4752A

3. Disengage piston safety lock.

TI3849A

4. Actuate gun onto cardboard or into waste container to relieve pressure.

TI4753a

5. Engage piston safety lock.

TI3850A

⚠ WARNING

Fluid in the hose and proportioner is still under pressure. Follow the Pressure Relief Procedure in the proportioner manual.

To relieve pressure in the hose after the gun is removed, place the fluid manifold over containers, facing away from you. Very carefully open the fluid valves. Under high pressure, fluid will spray sideways from the fluid ports.

TI2484A

Shutdown

For complete shutdown procedure, refer to Fusion Gun manual 309550 or 309856.

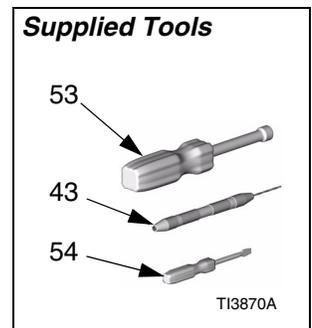

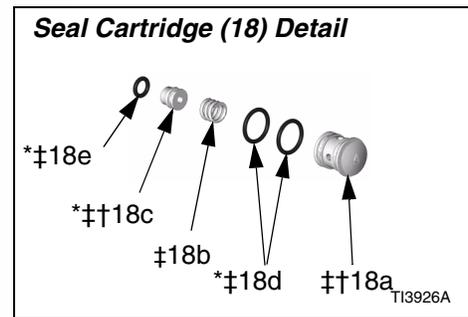

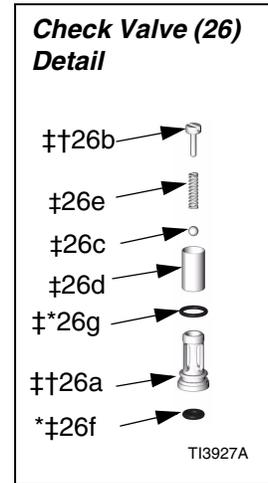

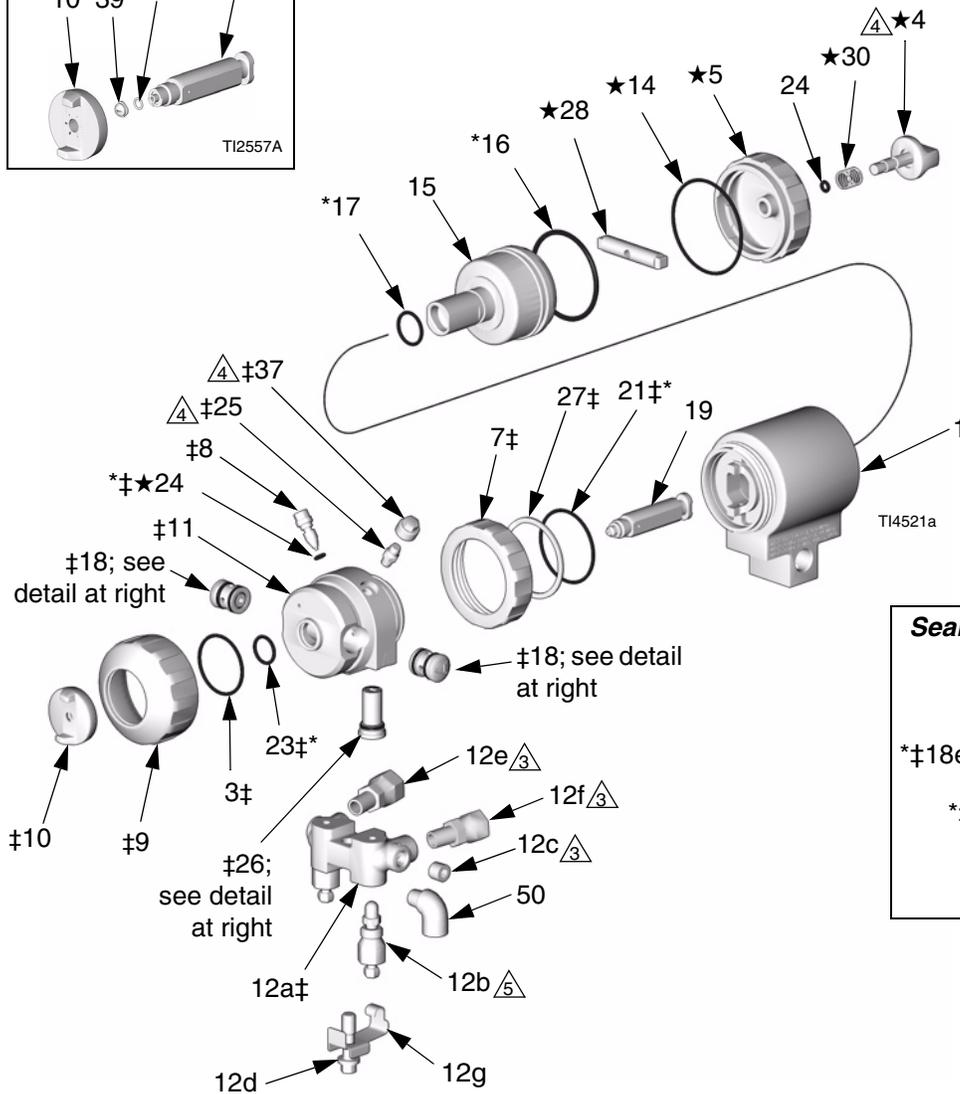

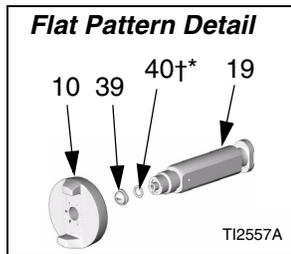

A series of horizontal lines for writing, consisting of 20 evenly spaced lines that span the width of the page.

Graco Standard Warranty

Graco warrants all equipment referenced in this document which is manufactured by Graco and bearing its name to be free from defects in material and workmanship on the date of sale to the original purchaser for use. With the exception of any special, extended, or limited warranty published by Graco, Graco will, for a period of twelve months from the date of sale, repair or replace any part of the equipment determined by Graco to be defective. This warranty applies only when the equipment is installed, operated and maintained in accordance with Graco's written recommendations.

This warranty does not cover, and Graco shall not be liable for general wear and tear, or any malfunction, damage or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering, or substitution of non-Graco component parts. Nor shall Graco be liable for malfunction, damage or wear caused by the incompatibility of Graco equipment with structures, accessories, equipment or materials not supplied by Graco, or the improper design, manufacture, installation, operation or maintenance of structures, accessories, equipment or materials not supplied by Graco.

This warranty is conditioned upon the prepaid return of the equipment claimed to be defective to an authorized Graco distributor for verification of the claimed defect. If the claimed defect is verified, Graco will repair or replace free of charge any defective parts. The equipment will be returned to the original purchaser transportation prepaid. If inspection of the equipment does not disclose any defect in material or workmanship, repairs will be made at a reasonable charge, which charges may include the costs of parts, labor, and transportation.

THIS WARRANTY IS EXCLUSIVE, AND IS IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

Graco's sole obligation and buyer's sole remedy for any breach of warranty shall be as set forth above. The buyer agrees that no other remedy (including, but not limited to, incidental or consequential damages for lost profits, lost sales, injury to person or property, or any other incidental or consequential loss) shall be available. Any action for breach of warranty must be brought within two (2) years of the date of sale.

GRACO MAKES NO WARRANTY, AND DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IN CONNECTION WITH ACCESSORIES, EQUIPMENT, MATERIALS OR COMPONENTS SOLD BUT NOT MANUFACTURED BY GRACO. These items sold, but not manufactured by Graco (such as electric motors, switches, hose, etc.), are subject to the warranty, if any, of their manufacturer. Graco will provide purchaser with reasonable assistance in making any claim for breach of these warranties.

In no event will Graco be liable for indirect, incidental, special or consequential damages resulting from Graco supplying equipment hereunder, or the furnishing, performance, or use of any products or other goods sold hereto, whether due to a breach of contract, breach of warranty, the negligence of Graco, or otherwise.

FOR GRACO CANADA CUSTOMERS

The Parties acknowledge that they have required that the present document, as well as all documents, notices and legal proceedings entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English. Les parties reconnaissent avoir convenu que la rédaction du présente document sera en Anglais, ainsi que tous documents, avis et procédures judiciaires exécutés, donnés ou intentés, à la suite de ou en rapport, directement ou indirectement, avec les procédures concernées.
