PROVEN QUALITY. LEADING TECHNOLOGY.

# Warnings

The following general warnings are for the setup, use, grounding, maintenance, and repair of this equipment. Additional, more specific warnings may be found throughout the body of this manual where applicable. *Symbols appearing in the body of the manual refer to these general warnings. When these symbols appear throughout the manual, refer back to these pages for a description of the specific hazard.*

 <b>WARNING</b>	
	<p><b>PERSONAL PROTECTIVE EQUIPMENT</b></p> <p>You must wear appropriate protective equipment when operating, servicing, or when in the operating area of the equipment to help protect you from serious injury, including eye injury, inhalation of toxic fumes, burns, and hearing loss. This equipment includes but is not limited to:</p> <ul style="list-style-type: none"> <li>• Protective eyewear</li> <li>• Clothing and respirator as recommended by the fluid and solvent manufacturer</li> <li>• Gloves</li> <li>• Hearing protection</li> </ul>
	<p><b>PRESSURIZED EQUIPMENT HAZARD</b></p> <p>Fluid from the gun/dispense valve, leaks, or ruptured components can splash in the eyes or on skin and cause serious injury.</p> <ul style="list-style-type: none"> <li>• Tighten all fluid connections before operating the equipment.</li> <li>• Check hoses, tubes, and couplings daily. Replace worn or damaged parts immediately.</li> </ul>
	<p><b>EQUIPMENT MISUSE HAZARD</b></p> <p>Misuse can cause death or serious injury.</p> <ul style="list-style-type: none"> <li>• Do not operate the unit when fatigued or under the influence of drugs or alcohol.</li> <li>• Do not exceed the maximum working pressure or temperature rating of the lowest rated system component. See <b>Technical Data</b> in all equipment manuals.</li> <li>• Use fluids and solvents that are compatible with equipment wetted parts. See <b>Technical Data</b> in all equipment manuals. Read fluid and solvent manufacturer's warnings. For complete information about your material, request MSDS forms from distributor or retailer.</li> <li>• Check equipment daily. Repair or replace worn or damaged parts immediately with genuine Graco replacement parts only.</li> <li>• Do not alter or modify equipment.</li> <li>• Use equipment only for its intended purpose. Call your Graco distributor for information.</li> <li>• Route hoses and cables away from traffic areas, sharp edges, moving parts, and hot surfaces.</li> <li>• Do not kink or over bend hoses or use hoses to pull equipment.</li> <li>• Keep children and animals away from work area.</li> <li>• Comply with all applicable safety regulations.</li> </ul>

# Installation

## Meter

See **Parts**, page 6.

1. When unpacking meter, check for shipping damage. Report any shipping damage to delivering carrier immediately.
2. To install meter on pump, apply PTFE tape or pipe sealer to 3/4 npt nipple (20) and screw into meter inlet port. Apply PTFE tape or pipe sealant to opposite end of nipple and screw nipple into pump outlet port by turning the meter assembly clockwise. Do not overtighten.
3. The meter is shipped with the counter assembly positioned so the meter outlet port is in the straight down position, with the hose out the bottom of the meter. To locate the hose on the sides or top, position the meter as desired (see step 2 above).

To rotate the counter assembly (16), see steps 1-3 under **Meter Assembly and Disassembly**, page 5. Rotate the counter assembly (16) so that the number wheels are horizontal. To reassemble meter, install parts in reverse order, making sure all seals are in place.

4. Apply PTFE tape or sealant to all threaded joints, then install hose in meter outlet port.

## Meter Calibration

The meter is factory calibrated for use with 10 weight motor oil at 70°F (21°C). To recalibrate meter for different fluids, or to recalibrate meter after service work has been performed, use the following procedure. See **Parts**, page 6.

1. Operate the pump to fill the meter, hose, and system with fluid. Make sure all air is out of system.
2. Reset counter to 000 by turning the reset knob (9) counterclockwise.
3. Fill a measured container to the 4 quart mark (3.8 liters).
4. Note meter reading. If reading is less than 4 quarts (3.8 liters), turn adjustment screw (18) clockwise. If meter reading is more than 4 quarts (3.8 liters), turn screw (18) counterclockwise. Repeat above procedure until counter reading agrees with measured amount of fluid.

## Operation

The meter registers the fluid in quarts. The top (larger) number wheel can be reset to zero by turning the reset knob (9) counterclockwise. The bottom (smaller) number wheels are a totalizing counter and cannot be reset. The resettable counter registers up to 99.9 quarts (95 liters). The totalizer registers up to 9999.9 quarts (9500 liters).

# Troubleshooting

Problem	Cause	Solution
Meter runs in reverse.	Meter installed backward.	Install meter with port marked "inlet" to pump outlet.
Fluid leakage in counter.	Seal on counter input shaft leaking.	Replace counter assembly.
Dust and dirt in counter cover.	Cover seal (8) or knob seal (10) missing or improperly installed.	Install missing seal, or correct installation.
Meter counter does not operate, fluid delivery normal.	Broken parts in counter assembly.	Replace counter assembly.
	Broken drive pin on disk (4).	Replace disk assembly.
	Foreign material in counter assembly.	Clean or replace counter assembly.
	Misaligned disk assembly.	Check disk assembly and clean; make sure alignment is correct. Make sure outlet is engaged with hole in outlet port, that o-ring seal (17) is installed, and that hold down screw (7) and washer (6) are tight.
	Defective or worn disk assembly.	Replace disk assembly.
Fluid leaks from meter.	Pipe fitting or hose installed without sealant.	Apply pipe sealant and reinstall.
	O-ring seal (2) worn or improperly installed.	Replace seal.
	Fastener (15) loose.	Tighten fastener.
Low or no outlet flow.	System problem other than meter.	Check other system components for problem.
	Foreign material in disk assembly.	Clean or replace damaged disk assembly.

# Repair

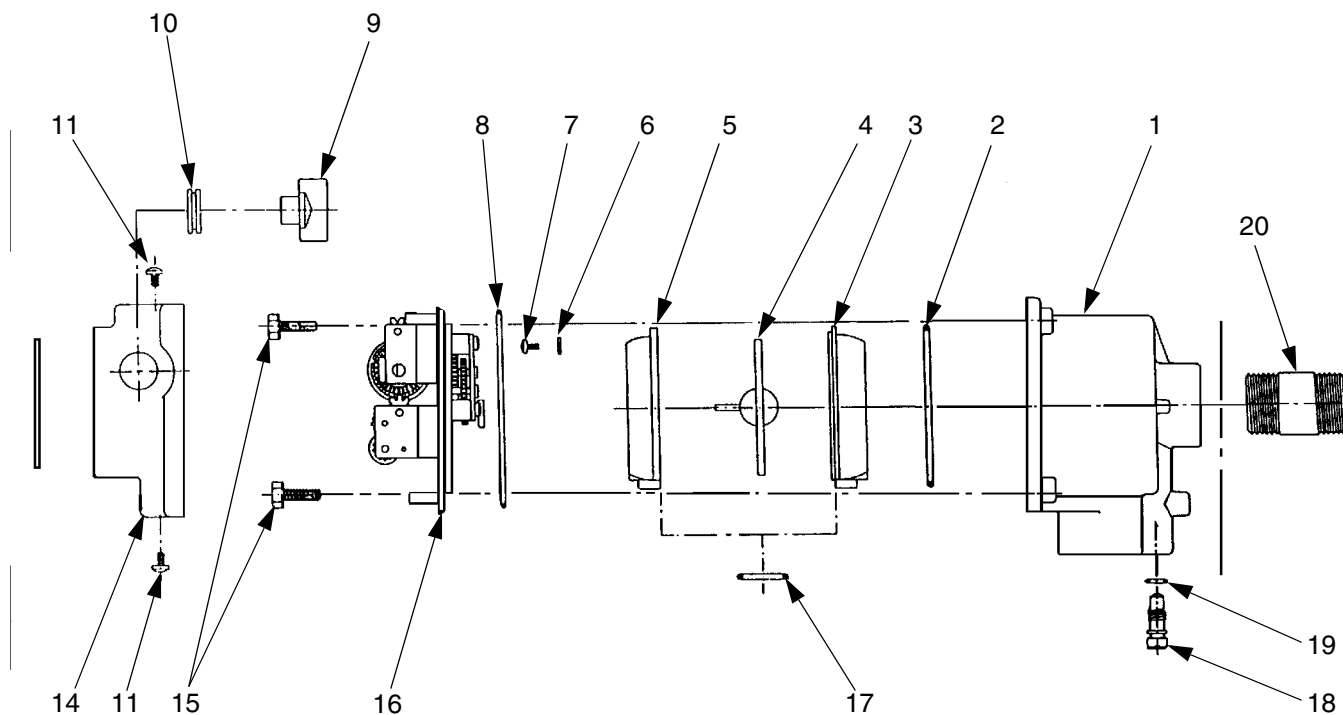

## Meter Assembly and Disassembly

To replace any of the major assemblies, disassemble meter as follows. See **Parts**, page 6.

1. Remove the reset knob (9) by pulling it straight out.
2. Remove two screws (11) and take off counter cover (14).
3. Remove four hex head bolts (15) to remove counter assembly (16).
4. To remove disk assembly (3, 4, 5), remove two screws (7) and washers (6). Disk parts must be replaced as an assembly; order kit number 260430.
5. Reassemble in reverse order of disassembly. Make sure all seals are in place.

# Parts

260415

Ref. No.	Description	Qty.	Ref. No.	Description	Qty.
1	HOUSING, meter	1	10	SEAL, grommet	1
2	SEAL, o-ring	1	11	SCREW; 8-32 x 1/4 in.	2
3	CHAMBER, lower	1	14	HOUSING, counter, cover	1
4	DISK	1	15	HEX BOLT; 1/4-20 x 3/4 in.	4
5	CHAMBER, upper	1	16	COUNTER, assembly, quarts	1
6	WASHER	2	17	SEAL, o-ring	1
7	SCREW; 6-32 x 1/4 in.	2	18	SCREW, adjustment	1
8	SEAL, o-ring	1	19	SEAL, o-ring	1
9	KNOB, reset	1	20	NIPPLE, pipe; 3/4 in. npt x 2.0 in.	1

## Kits

### Kit

Number	Description	Includes Items
260427	KIT, Knob	9, 10
260428	KIT, Air Adjustment	18, 19
260430	KIT, Metering	2, 3, 4, 5, 7, 8, 15, 16, 17

## Technical Data

Maximum Working Pressure	80 psi (0.55 MPa, 5.5 bar)
Inlet Size	3/4 in. npt
Outlet Size	3/4 in. npt
Weight	2.5 lb (1.1 kg)
Wetted Parts	diecast aluminum, carbon steel with zinc plating, 12L14 steel with zinc plating, 416 stainless steel, Valox®, nylon, fluoroelastomer

Valox® is a registered trademark of GE Plastics

# Graco Standard Warranty

Graco warrants all equipment referenced in this document which is manufactured by Graco and bearing its name to be free from defects in material and workmanship on the date of sale to the original purchaser for use. With the exception of any special, extended, or limited warranty published by Graco, Graco will, for a period of twelve months from the date of sale, repair or replace any part of the equipment determined by Graco to be defective. This warranty applies only when the equipment is installed, operated and maintained in accordance with Graco's written recommendations.

This warranty does not cover, and Graco shall not be liable for general wear and tear, or any malfunction, damage or wear caused by faulty installation, misapplication, abrasion, corrosion, inadequate or improper maintenance, negligence, accident, tampering, or substitution of non-Graco component parts. Nor shall Graco be liable for malfunction, damage or wear caused by the incompatibility of Graco equipment with structures, accessories, equipment or materials not supplied by Graco, or the improper design, manufacture, installation, operation or maintenance of structures, accessories, equipment or materials not supplied by Graco.

This warranty is conditioned upon the prepaid return of the equipment claimed to be defective to an authorized Graco distributor for verification of the claimed defect. If the claimed defect is verified, Graco will repair or replace free of charge any defective parts. The equipment will be returned to the original purchaser transportation prepaid. If inspection of the equipment does not disclose any defect in material or workmanship, repairs will be made at a reasonable charge, which charges may include the costs of parts, labor, and transportation.

**THIS WARRANTY IS EXCLUSIVE, AND IS IN LIEU OF ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY OR WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.**

Graco's sole obligation and buyer's sole remedy for any breach of warranty shall be as set forth above. The buyer agrees that no other remedy (including, but not limited to, incidental or consequential damages for lost profits, lost sales, injury to person or property, or any other incidental or consequential loss) shall be available. Any action for breach of warranty must be brought within two (2) years of the date of sale.

**GRACO MAKES NO WARRANTY, AND DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IN CONNECTION WITH ACCESSORIES, EQUIPMENT, MATERIALS OR COMPONENTS SOLD BUT NOT MANUFACTURED BY GRACO.** These items sold, but not manufactured by Graco (such as electric motors, switches, hose, etc.), are subject to the warranty, if any, of their manufacturer. Graco will provide purchaser with reasonable assistance in making any claim for breach of these warranties.

In no event will Graco be liable for indirect, incidental, special or consequential damages resulting from Graco supplying equipment hereunder, or the furnishing, performance, or use of any products or other goods sold hereto, whether due to a breach of contract, breach of warranty, the negligence of Graco, or otherwise.

## **FOR GRACO CANADA CUSTOMERS**

The Parties acknowledge that they have required that the present document, as well as all documents, notices and legal proceedings entered into, given or instituted pursuant hereto or relating directly or indirectly hereto, be drawn up in English. Les parties reconnaissent avoir convenu que la rédaction du présente document sera en Anglais, ainsi que tous documents, avis et procédures judiciaires exécutés, donnés ou intentés, à la suite de ou en rapport, directement ou indirectement, avec les procédures concernées.
